

WASHINGTON-Congressman Spencer Bachus is pleased to announce that the Chilton County Water Authority will be receiving \$350,000 in federally appropriated funds. The funds will build a water tank and provide water infrastructure to the people in the Gap of the Mountain area of the county. “This project is very important to the people in this area who currently use well water. Chilton County is new to my district, and I am working diligently to effectively represent the county in Congress”, Bachus said.

I’d like to thank the Congressman for his assistance in securing funds for the Gap of the Mountain project”, said Chilton County Water Chairman Jimmy Parnell. “The money will allow the Chilton County Water Authority to provide water to an area where families have a problem with wells that contain iron, magnesium, and bacteria. Without the grant money, the high infrastructure cost would not allow us to serve these people.”

Congressman Bachus requested the funds through the Subcommittee on VA HUD and Independent agencies. The appropriations bill passed the House last week.
